Passenger Policy,

Per the FMCSA 395.6(a) you must have authorization from “the motor carrier whose authority the vehicle is being operated” to carry a passenger. In other words, **2ND SHOT LOGISTICS, LLC** must authorize all passengers before they ride in your truck, every time you have a passenger. Passengers must be at least 10 years old and may not perform any duty or job related to the equipment or loads that you pull. You must fill out an authorization form every thirty days that a passenger ride with you. If you are carrying a minor, both parents/legal guardians must sign the authorization form. You need to keep a copy of the form in your legal book in the truck. You must also send a copy to **2ND SHOT LOGISTICS, LLC** every time you update or make a change. You must also carry passenger insurance. The insurance cost is \$5.00 per month and will be deducted from your settlement on a monthly basis.
